

General Conditional Major - Fuel Combustion Operations

Guidance For Requesting a Decrease in Reporting Frequency

- 1) When requesting a decrease in reporting frequency, compare your actual emissions during the latest 12 month period to the emission triggers in the chart below to determine the appropriate frequency.
- 2) IF ACTUAL EMISSIONS TRIGGER TWO DIFFERENT REPORTING FREQUENCIES, THE MOST STRINGENT REPORTING FREQUENCY MUST BE USED FOR ALL REPORTS.
- 3) Records of emergency and portable generator(s) use in hours per month are to be reported annually on a calendar year basis.

Parameter	Annual Reporting	Semiannual Reporting	Quarterly Reporting
Natural Gas (or propane/liquefied petroleum gas equivalent)	Less than or equal to 6.6×10^8 cubic feet per year	Greater than 6.6×10^8 but less than or equal to 1.32×10^9 cubic feet per year	Greater than 1.32×10^9 cubic feet per year
Fuel Oil 0.0-0.5% Sulfur(only)	Less than or equal to 825,000 gallons per year	Greater than 825,000 but less than or equal to 1,650,000 gallons per year	Greater than 1,650,000 gallons per year
Fuel Oil 0.51-2.5% Sulfur (only)	Less than or equal to 167,970 gallons per year	Greater than 167,970 but less than or equal to 335,940 gallons per year	Greater than 335,940 gallons per year
Combination of Fuel Oil	Less than or equal to 625,000 gals per yr (0.5%S) and less than or equal to 127,250 gal per yr (0.51-2.5%S)	Greater than 625,000 but less than or equal to 1,250,000 gals per yr (0.5%S) and greater than 127,250 but less than or equal to 254,500 gal per yr (0.51-2.5%S)	Greater than 1,250,000 gals per yr (0.5%S) and greater than 254,500 gal per yr (0.51-2.5%S)
